NEW FACES AT ACCE

My name is Mr. Charles A. Davis Jr., and I am the new principal of A.C.C.E. High School. I am looking forward to the 2022-2023 school year with great anticipation and excitement. Our instructional staff has worked diligently this summer in a series of professional development sessions to ensure that our students receive the best educational experience possible. There have been some new and exciting changes at A.C.C.E. High School to improve educational quality for our young people.

Here at A.C.C.E. High School, we seek to embrace the rich history and legacy of our past while at the same time setting a culture of high expectations and outcomes, data driven instruction with a student-centered focus, rigorous and relevant curriculum and standards, multiple student learning opportunities, and additional instructional and learning time. All of these facets are to ensure academic accountability in our continuous effort to increase and improve student achievement for all of our students.

As your principal, I will set a culture of high expectations for student achievement in our school and a high level of rigorous instructional delivery from our staff. We want every student at A.C.C.E. High School to meet their highest level of excellence and achievement as well as reach their greatest potential. In order to create a climate of high achievement and student success, it is essential that all students follow the district code of conduct. For the parents and the guardians of our students, we are asking for your full cooperation with partnering with the school staff to assist with reaching their goal of earning credits and eventually graduating from high school. It is our expectation that you remind your child about the focus and mission of their education and that you assist us by ensuring that they come to school, eager, on time, and prepared to learn.
